About Us

Aeritool GmbH was founded in 2010 and can look back on many years of experience in metal cutting.

The **Aeritool** team is constantly focussed on improvement and enhancement of their product range.

We work with the latest CAD technology and our production shop is equipped with ultra-morn machine tools. This puts us in a position to continually optimise our manufacturing processes, and allows us to react very quickly to your special needs.

Our Sales department is extremely customer-oriented and maintains very close contact with numerous renowned head green-keepers.

It is of great importance to us that your long years of experience find their expression in the quality of our products and help us in our quest to offer you the best possible tools.

We provide and maintain jobs in Germany.

Development - Production - Distribution - all „Made in Germany“!

With us you will always have healthy turf in a class of its own.

Wiedenmann Shank 12 mm

The illustration shows our precisely fitting shaft notch.

The rounded tensioning screw at the front of your aerator finds the optimal fit in the shaft notch for perfect locking of your tool.

Root cutting blade for the use with aerators

- Ventilation of the greens with a minimal disruption to the playing surface
- Cutting down to the desired depth for horizontally extending roots
- Improvement of water management
- No cracking of the stitched slots despite hot weather, as usual through slots

Technical data:

- Shank 12 or 19 mm
- Workwidth 19 mm
- Length of leg 4-3 mm tapered
- Knife with milled and sharpened cutting edge
- Length 160 or 200 mm
- hardened
- fitting for:
Toro, John Deere, Verti-Drain or Wiedenmann

>> go to the detailed application report in german language (see: www.aeritool.de)

Manual aeration tool „AeriFork“

All parts of the aeration tool „**AeriFork**“ are made in Germany.

The handle is made of sturdy, elastic ash wood. Three Aeritool Hollow Spoons (Type 07-300) are already fixed, but interchangeable in the tool holder. All original Aeritool Spoons with a mounting diameter of 19 mm can be used in the tool holder.

With the manual aeration tool „**AeriFork**“ you can now work on areas that were difficult to reach before.

Technical data:

- Dimensions (L x W X H): 1,5 cm x 30 cm x 4 cm
- Weight: 4 kg
- Spoons: 3Pc Hollow Spoons, open on the side (Type 07-300)
- Shank-Ø 19 mm, Working-Ø 19 mm, Length 145 mm
- Tool holder: zinc coated, stainless
- Flexible tool holder suitable for Hollow- and Solid-Spoons

More information and pricing are found on our website: www.aeritool.de

General Terms and Conditions

Aeritool's terms and conditions of payment and delivery

Prices

Our offers in the current Aeritool catalog are subject to change and non-binding. The catalog prices are stated net in EUR, here are the delivery costs and the statutory VAT. added. The ordering of the goods by the buyer is considered a binding contract offer. Unless otherwise stated in the order, we are entitled to accept this contract offer within two (2) weeks of receipt. An order must have a minimum order value of EUR 80.00 net plus VAT and plus shipping costs, with the exception of orders via the Aeritool online shop. In the event of price fluctuations from the manufacturer and in exchange rates during the season, we reserve the right to make price adjustments. The printed price list applies.

Payments

Payment is due within ten working days, strictly net. Offsetting against counter claims is not permitted. If the customer fails to comply with agreed payment dates, interest will be charged on the arrears at the level of the bank interest rate at that time, while reserving the right to concrete damages resulting from the delay.

Delivery periods

Our confirmed delivery periods are approximate dispatch dates. If the agreed delivery date is exceeded by more than two weeks, the customer has the right to set us, in writing, an extension of the delivery period of at least three weeks. If we fail to comply with the extended delivery period, the customer has the right to withdraw from the contract by making a declaration in writing, in so far as the notification of the extended delivery period contained a threat of withdrawal.

Complaints

The customer has the obligation to check the goods without delay following their receipt; if necessary the goods must be checked by taking samples. Any type of evident defect and the delivery of goods which are clearly other than those ordered, or the delivery of insufficient goods must be notified immediately they are received, i.e. without delay, and before use; such notification must be made in writing within eight days of receipt and must be specific. Following prior written agreement, goods which are the subject of complaint can be returned post-paid. Goods sent carriage forward and without the written agreement of Aeritool GmbH will not be accepted. Goods incorrectly ordered are subject to a handling charge of 15% of their value. Goods obtained specially may not be returned.

Reservation of proprietary rights

Deliveries of our goods are subject to extended reservation of proprietary rights. The goods remain our property until they have been paid for in full and may neither be pawned to a third party nor ownership transferred as security. Goods subject to retention of title must be correctly stored and adequately insured against fire and theft.

Court of jurisdiction

The court of jurisdiction is Villingen-Schwenningen.

By placing an order these conditions are expressly recognised.

Dimensions

- BD = Shank diameter
- L = Total length incl. Shank
- AT = Max. working depth
- AD = Working diameter
- ID = Inner diameter
